## ...in words

"CEPR is truly a unique organization.

We are a network that really works; we are a powerful platform for collaboration and dissemination; we are a voice for economics from Europe that is heard globally; we have delivered excellent research and relevant independent policy analysis for more than 40 years. And we continue to expand thanks to the enthusiasm and engagement of our friends and fellows."

# WHO WE ARE

CEPR is the leading global platform for dissemination of excellent economic research and relevant policy output to the research and policy communities and the informed global public.

CEPR's research is carried out under the auspices of 14 Programme Areas, each with a range of activities, including an annual symposium and research projects. The **programme areas** are:

- Asset Pricing** (led by Anna Pavlova)
- Banking and Corporate Finance** (led by Elena Carletti)
- Climate Change and the Environment** (led by Mar Reguant and Patrick Bolton)
- Development Economics** (led by Eliana La Ferrara)
- Economic History** (led by Rui Esteves)
- Industrial Organization** (led by Pierre Dubois)
- International Macroeconomics and Finance** (led by Silvana Tenreyro)
- International Trade and Regional Economics** (led by Beata Javorcik)
- Labour Economics** (led by Barbara Petrongolo)
- Macroeconomics and Growth** (led by Nicola Fuchs-Schündeln)
- Monetary Economics and Fluctuations** (led by Refet Gürkaynak)
- Organizational Economics** (led by Ghazala Azmat & Andrea Prat)
- Public Economics** (led by Johannes Spinnewijn)
- Political Economy** (led by Helios Herrera)

Further thematic research is also conducted within a framework of Research and Policy Networks (RPNs), which build communities of researchers around topics of high policy relevance and where academic research and collaboration with policymakers can have an amplified impact.

We currently have 13 **RPNs**:

- Central Bank Communication** (led by Michael McMahon)
- Competition Policy** (led by Tommaso Valletti)
- European Economic Policy** (led by Giancarlo Corsetti)
- European Financial Architecture** (led by Elena Carletti and Jan Pieter Krahen)
- Fintech and Digital Currencies** (led by Dirk Niepelt)
- Geoeconomics** (led by Moritz Schularick)
- Household Finance** (led by Michael Haliassos)
- Inequality and the Role of firms** (led by Mark Stabile)
- International Lending and Sovereign Debt** (led by Christoph Trebesch)
- Media Plurality** (led by Julia Cagé)
- Preventing Conflict: Policies for Peace** (led by Dominic Rohner)
- Spatial Disparities and Policy** (led by Helen Simpson)
- Sustainable Finance** (led by Dirk Schoenmaker)

# CEPR IN FRANCE

The Centre for Economic Policy Research was established in London in 1983 to 'promote and advance education for the public benefit in the efficient functioning of the national and international economy by conducting and promoting studies and research into open economies and the relations between them'.

On 1 October 2021, thanks to a consortium of our French partners, we established an Association in France, with offices on boulevard Saint-Germain in Paris. The Paris expansion is transformative for CEPR: we now have additional funding for our activities and are increasing the number and range of CEPR's Research and Policy Networks, flagship Policy Reports, Policy Insights, and eBooks, and can also expand CEPR's dissemination platforms.

## DISSEMINATION EVENTS

CEPR dissemination events enable the results of new research, alongside their implications for policy, to be presented to a wider, non-specialist audience and they are often hosted by CEPR member organisations. We held a dissemination meeting to launch the *Macroeconomic Policies for Wartime Ukraine* report in Paris in September 2022, and then organised a launch of the Paris Report on the Reconstruction of Ukraine, hosted by the Council of Europe Development Bank. In May 2024, we hosted a launch of the second Paris report on 'How Europe should de-risk: Economic security in an age of interdependence' at Sciences Po. We envisage holding more of these events in Paris in future.

# PARIS SYMPOSIUM

This week-long event brings together the CEPR community of distinguished fellows, research fellows, affiliates, and associates from Research Policy Networks and other CEPR initiatives. Each RPN/initiative gets the opportunity to plan a section of the programme, allowing for participants to attend multiple sessions across these sections and create an interdisciplinary environment.

The meetings are of clear interest to policymakers, given CEPR's focus on policy-relevant research. In addition, public dissemination events and policy panels on related topics of interest are also scheduled throughout the event, so that a wider audience can be engaged.

**The third edition of Paris Symposium will take place in December 2024.**

## PARIS REPORT

CEPR's Geneva Reports on the World Economy have formed the blueprint for other reports on seminal topics. Given the success of this series, we have now initiated an annual **Paris Report**, the first of which, on *Rebuilding Ukraine*, was edited by Yuriy Gorodnichenko, Ilona Sologub and Beatrice Weder di Mauro and was published in December 2022. The 2024 Paris report, published in May 2024 in collaboration with Bruegel and edited by Beatrice Weder di Mauro, Jean Pisani-Ferry and Jeromin Zettelmeyer, takes a deep dive into Europe's economic security challenge in the face of supply chain vulnerabilities and geopolitical shocks.

Future reports may emanate from the Paris-based RPNs, for example a Paris Report on Climate Change or on European Economic Architecture

# CENTRE FOR ECONOMIC POLICY RESEARCH

## CEPR President

### **Beatrice Weder di Mauro:**

Since 1984 CEPR has played a key role in establishing the scientific excellence and policy relevance of economics in Europe and beyond.

We are a community of 1,900 top researchers. Each year we sponsor more than 250 academic conferences and workshops all over the world, and we own the globally leading platform for disseminating quality economic research and policy publications: on CEPR's policy portal, VoxEU.org, we have an audience of over 7.5 million views per year.

CEPR has a mandate to engage in policy. It has a series of renowned products at the leading edge of economic policy debates; in particular, the Geneva Reports, Paris Reports, Barcelona Reports, the Policy Insights series, eBooks, and VoxEU columns.

We are constantly growing. We publish over 900 CEPR Discussion Papers annually and our network and influence have grown even larger as we have expanded geographically - in October 2021, supported by a consortium of French partners, we opened our office in Paris. In June 2022, we organised our first CEPR Symposium at SciencesPo in Paris that brought together leading voices in European and global economics. This has become an annual flagship CEPR event.

**CEPR is the premier European and global Thinknet.**

# ACADEMIC LEADERSHIP

## Beatrice Weder di Mauro

**President of CEPR, INSEAD Visiting Professor and Distinguished Research Fellow at the Hoffmann Global Institute for Business and Society, Professor of International Economics at the Graduate Institute in Geneva**

Beatrice has been CEPR President since July 2018. She previously held the Chair for International Economics at the University of Mainz, and has held visiting positions at Harvard University, the International Monetary Fund, the United Nations University in Tokyo and INSEAD in Singapore. She is a member of the boards of Bosch and Unigestion.

## Sir Charles Bean

**Chairman of CEPR, Professor of Economics at LSE, and formerly the Economy Expert on the Budget Responsibility Committee of the UK Office for Budget Responsibility**

From 2000 to 2014, Charles served at the Bank of England as, successively, Executive Director, Chief Economist and then Deputy Governor for Monetary Policy. He was President of the Royal Economic Society from 2013 to 2015 and was knighted in 2014 for services to monetary policy and central banking.

## Richard Baldwin

**Editor-in-Chief of CEPR's policy portal VoxEU, Professor of International Economics, IMD Business School, Geneva**

Richard was President of CEPR from 2014 to 2018, a Visiting Research Professor at the University of Oxford, Visiting Professor at MIT Economics Department, and an Associate Professor at Columbia University Business School. He founded VoxEU in 2007.

# VICE PRESIDENTS

## Maristella Botticini

**Vice President, Appointments at CEPR, Professor of Economics and Fellow of IGER at Università Bocconi in Milan**

Maristella is Vice President for Appointments and Research Fellow at CEPR and President of the European Economic Association. She was IGER Director from 2011-2019.

## Antonio Fatás

**Vice President at CEPR, Professor of Economics at European Institute of Business Administration (INSEAD)**

Antonio is Vice President and Research Fellow at CEPR and the Portuguese Council Chaired Professor of Economics at INSEAD. He is also a Senior Policy Scholar at the Center for Business and Public Policy, McDonough School of Business (Georgetown University) and a Senior Research Fellow at the Asian Bureau of Finance and Economic Research (ABFER, Singapore).

## Ugo Panizza

**Vice President, New Ventures at CEPR, Professor of Economics and Pictet Chair at Graduate Institute Geneva**

Ugo is Vice President for New Ventures and Research Fellow at CEPR and the Director of the International Centre for Monetary and Banking Studies (ICMB). He is also a Fellow of the Fondazione Einaudi and Editor of Oxford Open Economics.

## H el ene Rey

**Vice President, Special Projects at CEPR, Lord Bagri Professor of Economics at London Business School**

H el ene is Vice President for Special Projects and Research Fellow at CEPR. She is a member of the High Council of Financial Stability (French Macro Prudential Authority), of the Economic Commission of the Nation and the Bellagio Group on the international economy.

# OUR VISION

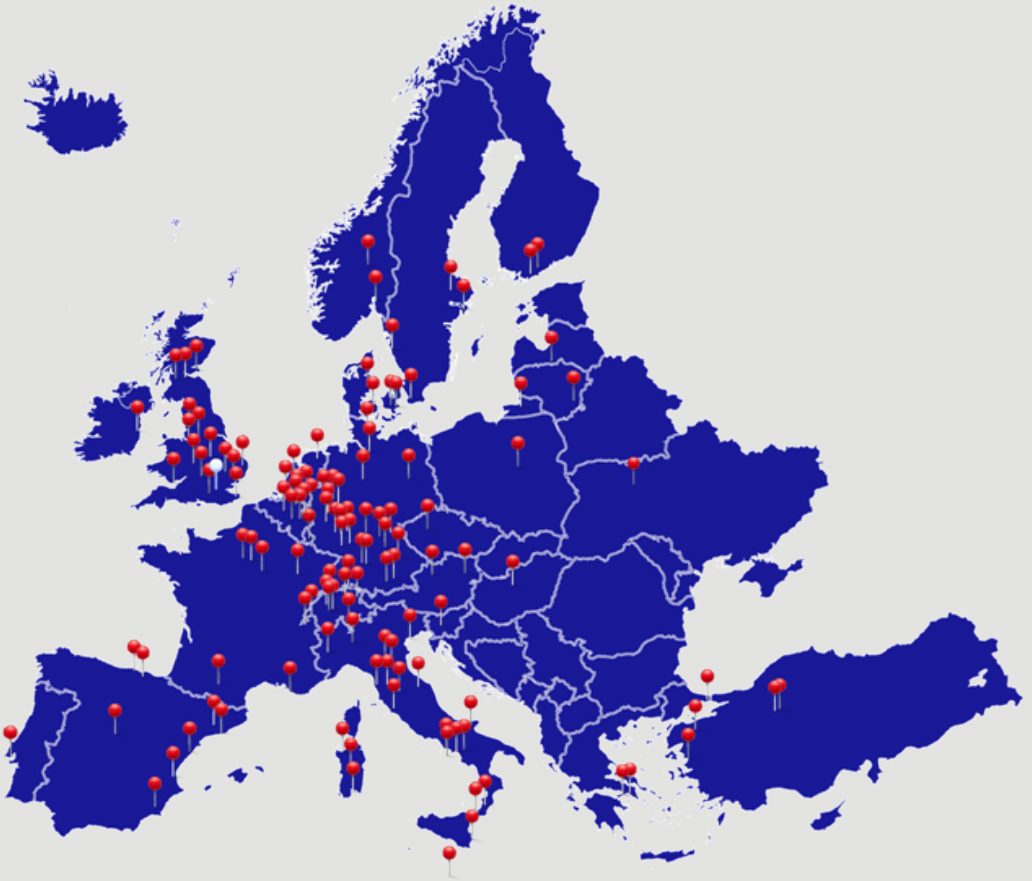

## PROMOTING RESEARCH EXCELLENCE WITH POLICY RELEVANCE

We endeavour to:

- foster the premier European academic network in economics, to produce and disseminate excellent economic research
- promote economic research that is relevant and accessible, through bringing together top academics and practitioners
- identify & promote exceptional young talent within our research base
- lead the debate on European economic architecture and develop special research projects and thematic networks, such as:
  - Central Bank Communication
  - Competition Policy
  - European Economic Policy
  - European Financial Architecture
  - Fintech and Digital Currencies
  - Geoeconomics
  - Household Finance
  - Inequality & the Role of Firms
  - International Lending and Sovereign Debt
  - Media Plurality
  - Preventing Conflict: Policies for Peace
  - Spatial Disparities and Policy
  - Sustainable Finance
- broaden our network of members and supporters

# CEPR RESEARCHERS IN EUROPE

**CEPR is the premier European network of leading researchers in economics.**

**Its researchers have played a pivotal role in the European economic integration process and continue to be on the cutting edge of the debate on reforming European economic architecture. Moreover, the pandemic, and more recently our work on the reconstruction of Ukraine, have demonstrated that the CEPR network is extremely powerful in responding to a crisis. We continue to use this strength to help rebuild and recover.**

# POLICYMAKERS

CEPR's research network includes academic researchers as well as practitioners and policymakers. We are proud to be working with a diverse group of policymakers including:

**Luc Laeven**  
Director-General of the Directorate General Research, European Central Bank; CEPR Research Fellow

**Beata Javorcik**  
Chief Economist, EBRD; Professor of Economics, University of Oxford; CEPR Programme Director for International Trade and Regional Economics

**Signe Krogstrup**  
Governor of Danmarks Nationalbank and CEPR Research Fellow

**Philip Lane**  
Chief Economist, European Central Bank; Whately Professor of Political Economy, Trinity College Dublin (on leave); CEPR Research Fellow

**Chad Bown**  
Chief Economist of the US Department of State and CEPR Research Fellow

**Swati Dhingra**  
External member of the Monetary Policy Committee, Bank of England; Associate Professor at LSE; Associate, Centre for Economic Performance

**Claudia Buch**  
Head of ECB Supervisory Board; CEPR Distinguished Fellow

**Monika Schnitzer**  
Professor in Economics and holds the Chair for Comparative Economics at LMU, Member of the German Council of Economic Experts and CEPR Research Fellow

**Agnes Bénassy-Quéré**  
Deputy Governor, Banque de France; Professor, University of Paris I Panthéon Sorbonne and PSE (on leave); CEPR Associate Fellow and Distinguished Fellow

**Isabel Schnabel**  
Member of the European Central Bank's Executive Board; Professor, University of Bonn (on leave); CEPR Research Fellow and Distinguished Fellow

# NOBEL LAUREATES

CEPR has six Nobel Laureates among its researchers:

## Paul Krugman

**Professor of Economics, Nobel Laureate, and CEPR Research Fellow**

Paul Krugman was awarded the 2008 Nobel Memorial Prize in Economic Sciences for his contributions to New Trade Theory and New Economic Geography. He is a CEPR Research Fellow in International Trade and Regional Economics. He is Distinguished Professor in the Graduate Center Economics Ph.D. programme and Distinguished Scholar at the Stone Center on Socio-Economic Inequality at the Graduate Center of the City University of New York.

## Christopher Pissarides

**Regius Professor of Economics, Nobel Laureate, and CEPR Research Fellow**

Christopher Pissarides was awarded the 2010 Nobel Memorial Prize in Economic Sciences jointly with Peter A. Diamond and Dale Mortensen for their analysis of markets with theory of search frictions. He is a CEPR Research Fellow in the Monetary Economics and Fluctuations programme. He is the Regius Professor of Economics at the London School of Economics and Political Science.

## Jean Tirole

**Director of the Toulouse School of Economics and of the Jean-Jacques Laffont Foundation, Nobel Laureate, and CEPR Research Fellow**

Jean Tirole was awarded the 2014 Nobel Memorial Prize in Economic Sciences for his analysis of market power and regulation. He is a CEPR Research Fellow in Public Economics, Banking & Corporate Finance, Organizational Economics, and Industrial Organization. He is Director of the Toulouse School of Economics and of the Jean-Jacques Laffont Foundation. He is also affiliated with CERAS in Paris and MIT.

# NOBEL LAUREATES

## Abhijit Banerjee

**Professor of Economics, Nobel Laureate, and CEPR Research Fellow**

Abhijit Banerjee was awarded the 2019 Nobel Memorial Prize in Economic Sciences jointly with Esther Duflo and Michael Kremer for their experimental approach to alleviating global poverty. He is the Ford Foundation International Professor of Economics at the Massachusetts Institute of Technology; Cofounder and Director of the Poverty Action Lab and a CEPR Research Fellow in Development Economics.

## Esther Duflo

**Professor of Economics, Nobel Laureate, and CEPR Research Fellow**

Esther Duflo was awarded the 2019 Nobel Memorial Prize in Economic Sciences jointly with Abhijit Banerjee and Michael Kremer for their experimental approach to alleviating global poverty. She was the Co-Director of the CEPR Development Economics programme from its inception in 2006 until 2015. She is the Abdul Latif Jameel Professor of Poverty Alleviation and Development Economics in the Department of Economics at MIT and is a Co-founder and Director of the Poverty Action Lab.

## Michael Kremer

**Professor of Economics, Nobel Laureate, and CEPR Research Fellow**

Michael Kremer was awarded the 2019 Nobel Memorial Prize in Economic Sciences jointly with Esther Duflo and Abhijit Banerjee for their experimental approach to alleviating global poverty. He is the Gates Professor of Developing Societies in the Department of Economics at Harvard University; a Fellow of the American Academy of Arts and Sciences; and a recipient of both a MacArthur Fellowship and a Presidential Faculty Fellowship. He is a CEPR Research Fellow in Development Economics.

# PUBLICATIONS

## Rapid Response Economics

is a CEPR publication series designed to publish research on major policy issues with the utmost speed. The first eBook of this series, **A Blueprint for the Reconstruction of Ukraine**, was published in April 2022 in response to the ongoing war in Ukraine. Within a period as short as two weeks, the collective of authors put together an overview of a possible reconstruction project in Ukraine. This book represents a starting point which has led into a broader project, encompassing further and more detailed analysis and more publications, such as **Macroeconomic Policies for Wartime Ukraine**, published in August 2022.

Another demonstration of CEPR's ability to quickly respond to policy issues is a fourth publication from Rapid Response Economics that reacted to the March 2023 events in the financial system: **SVB and Beyond: The Banking Stress of 2023**.

## eBooks

Each year, CEPR Press publishes more than a dozen eBooks and Reports. We have a backlist of over 450 titles by almost 3,000 authors. Recent topics have covered inflation, globalisation, policies to tackle climate change, sustainable finance, the European Exchange Rate Mechanism, trade, and the impact of social media on politics and the economy.

# PUBLICATIONS

## Policy insights

CEPR Policy Insights (PI) are tightly argued policy essays aimed at economists working in governments, international organisations, the private sector, academics and the media. They provide a more in-depth analysis than that in a Vox column, but not as developed as would be the case in a report or eBook. They are an effective way of widely disseminating a short piece of research and are thus becoming a publication vehicle of choice for policy-relevant pieces of output from top economists.

## Economic Policy

Launched nearly 40 years ago, this journal is a joint venture between CEPR, CESifo, and Sciences Po. In its current format, biannual Panel meetings, where selected papers are presented and discussed, are followed by quarterly publication. With over 100 issues to date, the 'impact factor' of **Economic Policy** ranks highly among economics journals, so it is widely cited by academics too. It is without doubt the pre-eminent policy-related economics journal in Europe, at the level of the US Brookings Papers on Economic Activity. The papers are timely, authoritative, and accessible to a wide economics-trained audience, not just academics.

**VoxEU** - CEPR's policy portal - was set up in June 2007, in the midst of the financial crisis, when the need for an analysis of what was happening and what should happen was prescient. It promotes research-based policy analysis and commentary by leading economists.

**VoxEU** has an impressive audience, with 7.5 million+ pageviews each year and 6 million users, numbers which consistently grow annually.

**VoxEU** readers include a vast range of government officials, private-sector economists, elite business and media professionals, and academics, as well as students of economics. This wide-ranging audience ensures that the world's best policy-relevant economists are keen to write for VoxEU.

**VoxEU** columns cover all fields of economics broadly defined. We are constantly introducing new innovations: videos, podcasts, and most recently a Blogs & Reviews section, which gathers together blog posts and book reviews from leading economists around the world.

**VoxEU's** most popular column 'A tale of two depressions: What do the new data tell us?', by Barry Eichengreen and Kevin O'Rourke, has had over 1 million reads to date.

**VoxEU's** successful and long-running VoxTalk podcast series appears weekly and can be subscribed to via all major podcast platforms. Host Tim Phillips catches up with leading economists to discuss new research with commentary and analysis. Perfect for keeping in touch with current trends in economic policy research while on-the-go.

# RECONSTRUCTION OF UKRAINE

On February 24, 2022, Russia invaded Ukraine. We find ourselves faced with an unspeakable tragedy, a major war right in Europe. The end of this conflict is not in sight and the outcome is uncertain. At a time when we were hoping to focus on efforts to battle climate change and its consequences, we have had to shift our attention to the consequences of an armed conflict. CEPR has again mobilised its network of researchers and launched a series of efforts focused on Ukraine.

Shortly after the outbreak of the war, our collective of authors put together an overview of a possible reconstruction project in Ukraine: **'A Blueprint for the Reconstruction of Ukraine'**, which formed the first issue of a new 'Rapid Response Economics' series.

In September 2022, we launched the second Rapid Response Economics issue **'Macroeconomic Policies for Wartime Ukraine'**, in Paris. The eBook establishes a series of macroeconomic recommendations to put the Ukrainian economy on a sustainable trajectory for the duration of the war. The public dissemination event in Paris was followed by a two-day workshop that presented early versions of CEPR's Paris Report on the Reconstruction of Ukraine.

This in turn has led into a broader project encompassing further and more detailed analysis, including a **debate** on our policy portal VoxEU.org on the economic consequences of the war, moderated by Yuriy Gorodnichenko and Dominic Rohner. The debate encourages evidence-based and analytical contributions, focusing on a variety of dimensions linked to all fields of economics, such as re-thinking energy policy, global food production, and inflation and monetary policy.

# WOMEN IN ECONOMICS

CEPR has formalised its efforts to improve female representation in the economic profession with the creation of the CEPR Women in Economics Initiative. Led by CEPR's Vice-President, H el ene Rey, this initiative aims to redress gender imbalances in the economic profession, partnering with CEPR member organisations to promote women within the field.

## **WE\_ARE Series**

In 2020, CEPR launched a new virtual seminar series, WE\_ARE - Women in Economics: Advancing Research in Economics, where junior women present their work and get constructive feedback from their peers and from senior economists. The seminar series aims to bring together junior and senior women in economics and to contribute to building an active and cooperative CEPR Women in Economics community.

## **WE\_ARE and WinE**

In 2021, WE\_ARE joined forces with WinE, the EEA Standing Committee on Women in Economics, whose objective is to support women in the economics profession by facilitating the formation of networks, by circulating information on, or relevant to, female economists, and by providing a forum for discussion of issues relevant to women in economics. WE\_ARE and WinE have introduced a series of special sessions offering useful advice and tools for junior women in the profession.

## **Women in Economics: Advancing Research in Economics Internationally**

In 2021, CEPR introduced WE\_ARE\_IN - Women in Economics: Advancing Research in Economics Internationally. It brings together two initiatives, based in Europe and the United States respectively: CEPR's WE\_ARE Seminar Series and WiM, an annual conference, organised with support of the Becker Friedman Institute, that features the work of Women in Macro and creates opportunities to strengthen their research and expand their networks. We have had four successful WE\_ARE\_IN Conferences to date (2021 virtual via Zoom, 2022 at BIS in Basel, 2023 at Sveriges Riksbank in Stockholm, and in 2024 at Bank of Spain in Madrid).

# CEPR'S MEMBERSHIP PROGRAMME

CEPR Membership offers unique access to cutting-edge research with direct relevance for economic policy issues, and to the leaders shaping Europe's economic, political and financial future. Benefits include privileged access to meetings and publications as well as direct access to Europe's most influential and established network of academic economists.

**"CEPR has become a synonym for the kind of economics we need."**

*Mario Draghi*

**"The premier centre of policy-oriented research in Europe, perhaps even the world."**

*Stanley Fischer*

# 200+

Access conferences, workshops and discussion meetings organised each year

# 330

Connect with academic institutions represented within the CEPR network

# 1900

Leading economists are part of CEPR's global network

**"More than ever before, policymakers need to ground the analysis in expert knowledge and the scientific method which means constantly testing hypotheses and adjusting decisions in the light of new evidence. [...] Thanks to the CEPR, policy makers can do this with less difficulty today."**

*Christine Lagarde,*

*President of the European Central Bank*

# IMPACT AND INFLUENCE

CEPR has had a pivotal impact on economic policy, going back four decades. Ideas and evidence from CEPR policy research have been influential on many topics. Just as in previous years, when CEPR and VoxEU became the central meeting point for the production and dissemination of immediate research on Covid-19 crisis, the CEPR network mobilised again in 2022 in response to the invasion of Ukraine. In 2022, CEPR researchers produced three rapid response eBooks that discuss the reconstruction project for Ukraine and outline macroeconomic policies to put the economy of the Ukraine on a sustainable trajectory for the duration of the war, and a fourth on the banking crisis of 2023.

The Centre's close relationship with central banks - in Europe and around the world - is an important factor in its impact on policy. Almost all Eurozone central banks and the Bank of England are CEPR institutional members, as are the central banks of Canada, Hungary, Iceland, Israel, Mexico, Norway, Romania, the Federal Reserve banks of San Francisco and St. Louis, Sweden, Switzerland, and Turkey. The Centre collaborates actively with policymakers and researchers from these central banks, holding many conferences annually. It also supports cooperation among central-bank economists, for example with the Euro Area Business Cycle Network. The CEPR's Euro Area Business Cycle Dating Committee (the European equivalent to the NBER's Business Cycle Dating Committee) establishes the dates of Eurozone recessions.

# IMPACT AND INFLUENCE

Our private-sector Institutional Members also play a key role in helping CEPR disseminate policy-relevant research to decision makers in financial and non-financial corporations. They regularly host CEPR workshops, conferences and public discussion meetings. CEPR engages directly with policymakers through the Institutional Memberships of government agencies. These include Japan's Research Institute of Economy, Trade and Industry (RIETI), IMF, European Commission, OECD, the UK Department for International Trade and the Bank for International Settlements.

**"CEPR has made an important contribution to the international policy debate in recent years ... This role will be even more important over the next decade."**

*Lawrence H. Summers,  
Former President of Harvard University and Former Secretary of the Treasury*

# CEPR MEMBERSHIP AND BENEFITS

	Standard Membership	Premium Membership	CEPR Partnership
	15,000 EUR	25,000 EUR	50,000 EUR
